Backfield Structure: Councilman John Brennan attended the meeting and gave a presentation regarding the proposed renovation of the upstairs of the structure found in centerfield. He indicated that the room to be constructed would also be used by Public Works employees during snow emergencies etc. The Little League would have to pay for materials/labor if they wanted a deck off the back. Mr. Brennan also stated that the bathrooms are going to be renovated with grant money currently being held up by the State.

VOTE: A vote was taken and it was unanimously approved that the Little League would support the Council's renovation plan and that we would pay for the deck off the back. Mike Forrester will draft a letter to Mr. Brennan stating the League's approval.

SIGN-UPS: The sign-up numbers were discussed. It was decided the league would give until 2-26-11 for players to sign-up. After that no new sign-ups would be taken if the sign-up would make a team exceed 12 players.

Players moving up: Based on the numbers there was a strong possibility of players moving up. It was decided that players who were old for their age group/young for grade would be the first eligible to be moved up.

Batting cages: The new cages have withstood the storms. They are 95% completed.
